STAT [redacted]

It is with distinct pleasure and appreciation that we accept your final report (VE-1446-G-4) on "Application of Perceptrons to Photointerpretation" in complete fulfillment of the report requirements of Contract [redacted] STAT I am confident that this exploratory effort into automatic recognition of features in photograph will prove a useful reference for the scientific community. Over the past several years the many reports resulting from this contract have been the subject of considerable discussion within the Navy offices concerned with photo-interpretation.

I hope you will convey our heartiest thanks to [redacted] STAT and others whom I have not met who have worked long to make the last several reports possible.

Sincerely yours,

[redacted] STAT
